

One Minute Locator Service Specifications

Service overview

The One Minute Locator service provides a minute-by-minute position for locating vehicles. Once the fleet vehicles have been set up in the RIO administration area on the RIO platform and the One Minute Locator service has been booked for the vehicles via the Marketplace, the following services can be used for the various vehicle categories:

Functionality	MAN Truck	MAN Bus	MAN Van	Non-MAN Vehicle (RIO box in FMS mode)
Display of a minute-by-minute vehicle position in the fleet monitor For TGEs with OCU3 (from MY21): display of a vehicle position every 30 seconds	x	x	Vehicles with a RIO box / From MY21: vehicles with OCU3	Vehicles with a RIO box
Display of a minute-by-minute vehicle position in the Pocket Fleet app For TGEs with OCU3 (from MY21): display of a vehicle position every 30 seconds	x	x	Vehicles with a RIO box / From MY21: vehicles with OCU3	Vehicles with a RIO box

Please also obtain information about the function extensions when using One Minute Locator in connection with Geo (cf. Geo Service Specifications).

Technical requirements

To be able to use the One Minute Locator service, the following technical requirements must be fulfilled:

- Use of a RIO box or an OCU3 (TGEs from MY21) (provision not covered by the Service T&Cs).
- The One Minute Locator service can be used for minute-by-minute data transfer (every 30 seconds for OCU3) only after successful configuration of the RIO box or OCU3 (TGEs from MY21). This configuration is carried out automatically. To this end, the vehicle must be reachable by radio.
- Internet browser (we recommend using the latest version of the following browsers: Google Chrome, Mozilla Firefox, Microsoft Internet Explorer, Microsoft Edge. We cannot guarantee unrestricted functionality if using other browsers).
